WHO WE ARE —

Operational support for government agencies and cooperative programs.

Innovative Business Concepts (IBC) is a woman-owned and minority-owned small business specializing in public-sector transformation, operational stabilization, emergency response support, and program execution.

With more than 25 years of government consulting experience, IBC supports state agencies, local governments, public health organizations, and mission-driven programs operating in high-visibility and high-pressure environments.

CORE CAPABILITIES —

Program & Operational Management

- Program stabilization and turnaround
- PMO and program execution services
- Multi-agency coordination
- Operational readiness and deployment
- Strategic planning and implementation

Emergency Response & Surge Support

- Emergency program setup and rapid mobilization
- Public health and crisis-response operations
- Interagency coordination and field support
- Surge staffing coordination and deployment
- Stakeholder engagement and communications

Technology & Transformation Support

- Digital transformation initiatives
- Technology requirements analysis
- Vendor coordination and implementation oversight
- Data reporting and operational dashboards
- Process improvement and BPR

Oversight, Compliance & Quality Assurance

- Independent Verification & Validation (IV&V)
- Program integrity and compliance reviews
- Audit and performance support
- KPI development and operational reporting
- Risk assessment and mitigation

DIFFERENTIATORS —

Proven experience supporting high-visibility public-sector initiatives
 Rapid-response operational support for urgent, evolving environments
 Integrates strategy, operations, technology, and execution
 Scalable delivery via strategic partner network

Cross-agency, vendor, and stakeholder coordination
 Flexible multi-site, multi-jurisdiction deployment
 Woman-owned and minority-owned small business
 Execution-focused approach for high-pressure environments

Experience Highlights

Public Health Emergency Response

Supported large-scale COVID-19 response, including vaccination operations, emergency coordination, and rapid operational deployment.

Multi-Agency Program Coordination

Supported cross-functional government initiatives requiring coordination between agencies, vendors, leadership, and operational stakeholders.

Program Stabilization & Turnaround

Provided operational leadership and execution support for delayed, high-risk, or high-visibility initiatives requiring rapid stabilization.

Data & Reporting Operations

Supported development of reporting structures, operational dashboards, and transparency initiatives to improve decision-making and oversight.

Operational Scaling & Rapid Mobilization

Supported rapid implementation and scaling for public-facing programs under compressed timelines and evolving requirements.

COOPERATIVE PROCUREMENT READINESS

Designed for state, local, and cooperative purchasing programs.

IBC is actively expanding participation in cooperative procurement and public-sector contracting ecosystems. Our operational model supports scalable multi-agency engagements, rapid deployment, and contract administration requirements.

- ✓ Contract administration and reporting
 - ✓ Subcontractor and partner management
 - ✓ Surge-response operational support
 - ✓ Cross-jurisdiction implementation support
- ✓ Multi-site operational coordination
 - ✓ Rapid onboarding and deployment
 - ✓ Scalable staffing coordination
